

Overview

Knowledge is essential to business success. When your company is faced with complex issues driven by evolving technology, regulatory requirements and changing competitive circumstances, you must embrace change and evolve to drive growth and profitability for your company. RCM's proven Business Intelligence (BI) solutions provide decision-makers with sales, production, financial and various other sources of business data in a way that is easy to understand and relate to their company's business performance management. By integrating data from your company's information systems into a consolidated data warehouse, RCM can help you create past, current, and predictive views of your business practices. Our team will provide guidance in turning your information into knowledge that will allow you to make critical decisions faster and

“Through RCM Technologies' outstanding combination of technical excellence, comprehensive knowledge of the Microsoft software products, superb project management and just plain hard work, the hosted version of Governance Work Place (GWP) solution has exceeded our expectations, and the other solutions RCM has built for us will also have lasting benefits for the overall GWP product suite. We could not be more pleased with RCM's innovative work.”
