

Overview

The RCM Business Process Library is an easy to use, step-by-step collection of application specific work instructions. It is designed to easily adapt to your business processes and enhance your teams' productivity within the QAD Enterprise Applications.

RCM's senior consulting staff regularly updates the Business Process Library with the latest QAD software versions. Using their industry knowledge of best practices, they have formulated instructional material that will increase the usability of QAD within your organization.

The Business Process Library can also be utilized for new and existing employee education. So whatever level of QAD expertise you may possess, the Learning Library can improve your proficiency of QAD for today as well as into the future.

“We will work one on one with you to create a framework that best supports your environment.”

In conjunction with the Business Process Library, RCM service professionals can assist with tailoring learning materials to your core business processes.

RCM Technologies

Enterprise QAD Solutions

Built on QAD® applications, RCM Technologies' Enterprise QAD Solutions unit provides high quality, cost-effective business solutions and services that enable customers to meet and exceed their objectives. QAD® applications manage the core business processes of your enterprise, with industry-specific design functionality. As an authorized Sales and Services Channel Partner of QAD®, RCM leverages the expertise of their staff and proven methodologies to assist clients in implementing QAD® applications.

For almost two decades, RCM has been recognized as a leader in providing QAD® applications for business solutions. By understanding industry trends, challenges, and issues, RCM extends the capability of QAD® Enterprise Applications and maximizes a client's investment.
