

## BUSINESS PRODUCTIVITY with Microsoft Online Services

Enterprise Business Solutions

### Engaging in a Proof of Concept

RCM Technologies offers your company a free, comprehensive evaluation of the Business Productivity Online Suite (BPOS).

RCM has teamed with Microsoft to offer the BPOS PoC program - a zero-cost program where RCM helps your organization learn about BPOS. RCM will help you obtain and configure a trial account so that your team can evaluate the capabilities and user experience of this solution.

RCM will guide you through every step of the process, from signing up for a free trial account to training end users.

As part of the BPOS PoC, RCM will analyze your company's business and technical requirements and showcase how the BPOS solution can address those needs. RCM can also help you move your existing data into your new BPOS account.

#### Proof of Concept Program Benefits

- Results in a fully functional BPOS environment for up to 20 users, with e-mail, SharePoint sites, Web conferencing and more
- Offers a proven roadmap and recommends best practices to ease your adoption
- Helps demonstrate how the Microsoft Software + Services solution is the best fit for your business needs
- Reduces risk by providing an opportunity to identify and mitigate potential migration issues

*“With the Business Productivity Online Suite, I have a much easier method of managing e-mail and collaboration for our users. The deployment itself is very easy and fast, and I can rely on Microsoft to manage everything. I have seen at least a 50 percent productivity increase because of the Business Productivity Online Suite.”*

~ Jay Magness, IT Manager

Medway Plastic Corp.

### What a Proof of Concept Can Do For You

The Microsoft Business Productivity Online Suite (BPOS) is a set of messaging and collaboration solutions that are hosted by Microsoft, consisting of Microsoft Exchange Online, SharePoint® Online, Office Live Meeting, and Office Communications Online. These online services are designed to give your business streamlined communication with high availability, comprehensive security, and simplified IT management without sacrificing user experience. Your business benefits from always up-to-date technologies that are deployed rapidly, thereby maximizing your IT resources and reducing your infrastructure costs.

So how do you know whether BPOS is the right choice for your company? That's where the BPOS Proof of Concept (PoC) program comes in. RCM Technologies is skilled in helping companies like yours evaluate your business and technical needs, set up a free trial account, and test drive the BPOS solution so your team gains the hands-on experience you need to make an informed decision—all at no cost to you.

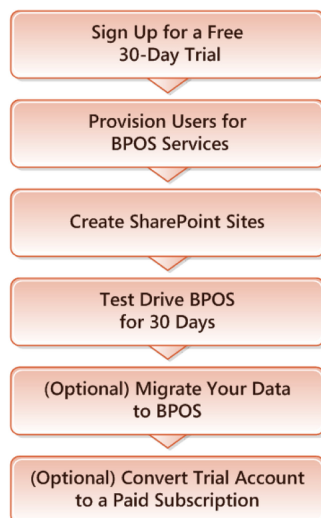

RCM is here to help you every step of the way. Not only will we get you up and running with the BPOS PoC, but we can also help you at the end of the trial period if you decide to subscribe to the BPOS service and need technical assistance moving your information from your current system or service into your new BPOS account.

Partner

## What Happens During a PoC

As illustrated in the flow chart below, a BPOS PoC can be broken down into six steps. RCM will help you from beginning to end.

- 1. Sign Up for a Free 30-Day Trial:** Free 30-day account for up to 20 users at: <https://mocp.microsoftonline.com/site/services/bpos/signup.aspx?offer=suite&quoteid=5282be0d-9576-45b4-9317-791df3371c0f>
- 2. Provision Users for BPOS Services:** Add user accounts and allocate BPOS services so your employees can test BPOS.
- 3. Create SharePoint Sites:** RCM can help you import site templates to easily add document libraries, lists, wikis, blogs, and more.
- 4. Test Drive BPOS for 30 Days:** Spend up to 30 days to experience the integrated services BPOS offers.
- 5. (Optional) Migrate Your Data to BPOS:** RCM can help you move data in your current on-premise systems to your BPOS account.
- 6. (Optional) Convert Trial Account to a Paid Subscription:** You can convert your free trial account at any time to a BPOS subscription - keep all the configurations and data you have already added to your account.

## What You Get Out of a PoC

At the end of your BPOS PoC, you will have a fully functional BPOS environment that includes:

- Activated accounts for up to 20 users
- Sample SharePoint sites for blogs, wikis, document libraries, and more
- Integrated instant messaging and presence within Exchange Online, SharePoint Online, and other Office products (if applicable)
- (Optional) System configured to work with your on-premise Active Directory®
- Easy conversion of your trial account to a paid subscription

In addition to the functional BPOS account, RCM will also provide you with a customized set of documentation that offers specific guidance to help you with your move to BPOS, including:

- Evaluation Plan
- Project Plan
- Change Management Plan
- Communication Plan
- PoC and Migration Plan

## Get Started

The Microsoft BPOS PoC program gives your IT administrators and employees an opportunity to systematically evaluate the BPOS solution. This zero-cost program will provide you with guidance and best practices from a knowledgeable Microsoft Partner to help you jump-start your BPOS experience.

What are you waiting for? Talk with RCM Technologies today and see for yourself how the Business Productivity Online Suite can help drive your business forward.
